

Proxmox Backup Server

Créer un nouveau volume

```
newpath="isis"  
newsize="2600G"  
lvcreate -n $newpath -L $newsize vg0  
mkfs.ext4 /dev/vg0/$newpath  
mkdir /srv/$newpath  
  
nano /etc/fstab  
  
systemctl daemon-reload  
mount /srv/$newpath/  
proxmox-backup-manager datastore create $newpath /srv/$newpath
```
