

Policy Gateway

But: router une IP via un WAN, et une seconde IP vers un autre WAN

1. System: Routes: Configuration

System: Routes: Configuration

Disabled	Network	Gateway	Description
☐	1.1.1.1/32	WAN_XDSL_PPPOE	
☐	8.8.4.4/32	WAN_COAX_DHCP	

Do not enter static routes for networks assigned on any interface of this firewall. Static routes are only used for networks reachable via a different router, and not reachable via your d

Apply

2. Firewall: Rules: Floating

1. Faire des règles combo destination/gateway
2. Faire des règles qui bloque l'ip d'une destination sur le gateway défaut

Firewall: Rules: Floating

The changes have been applied successfully.

Protocol	Source	Port	Destination	Port	Gateway	Schedule
IPv4 UDP	*	*	This Firewall	21194 - 21195	*	*
IPv4 *	*	*	1.1.1.1	*	WAN_XDSL_PPPOE	*
IPv4 *	*	*	8.8.4.4	*	WAN_COAX_DHCP	*
IPv4 *	*	*	8.8.4.4	*	*	*

3. Sur chaque accès Wan, faire une règle OUT qui bloque la sortie vers cette ip

Firewall: Rules: WAN_COAX

Protocol	Source	Port	Destination	Port	Gateway	Schedule	Description
IPv4 *	*	*	1.1.1.1	*	*	*	Automaticall
pass							
pass (disabled)							
block							
block (disabled)							
reject							
reject (disabled)							
log							
log (disabled)							

WAN_COAX rules are evaluated on a first-match basis by default (i.e. the action of the first rule to match a packet will be executed). This means that if you use block rules, you will have to pay attention
