

Windows: repair dism & sfc

Dépendant du format de fichier d'install:

```
DISM /get-wiminfo /wimfile:x:sources/install.wim
DISM /Online /Cleanup-Image /RestoreHealth
/Source:WIM:X:\sources\install.wim:IndexNumber /LimitAccess
DISM /Online /Cleanup-Image /RestoreHealth
/Source:ESD:X:\sources\install.esd:IndexNumber /LimitAccess
```

Puis faire un sfc /scannow

```
dism /image:d: /cleanup-image /revertpendingchanges
```
